EMC complies with all US and applicable export control laws and regulations, and works with the US Bureau of Industry and Security (BIS) to properly classify EMC products with encryption. This page details the products EMC currently ships that have been classified with the BIS, and provides the relevant classification tracking number (CCATS). Please note that some EMC products provide 3rd party software or hardware that may have various ECCNs. If you have a question about a third party product, you should contact the original manufacturer for the product's most current export classification.
